## PROJECT DESCRIPTION

The project seeks to enhance child protection, health, dignity and quality learning by renovating and upgrading washroom infrastructure at Bosco Boys Nairobi into safe, inclusive, hygienic and child-friendly sanitation facilities that comply with national Public Health and education standards.

## KEY PERFORMANCE INDICATORS (KPIs)

- Rehabilitation of existing toilet cubicles.
- Replacement of damaged sanitary fixtures.
- Repair of floors, walls and partitions.
- Installation of durable, easy-to-clean finishes.
- Improvement of ventilation and lighting.
- Rehabilitation of bathing areas.
- Repair and replacement of water supply systems.
- Installation of improved drainage.
- Replacement of damaged water pipes.
- Repair of leaking plumbing systems.
- Rehabilitation of blocked sewer lines.
- Improvement of wastewater disposal systems.
- Upgrading of drainage channels to prevent water stagnation and flooding.
- Repair and installation of functional handwashing stations.
- Installation of reliable water points.
- Provision of soap dispensing facilities.
- Placement of hygiene education signage promoting proper handwashing practices.
- Age-appropriate washroom facilities for younger learners.
- Gender-responsive sanitation arrangements.
- Privacy-enhancing improvements.
- Accessibility features for learners and visitors with disabilities, including ramps and handrails where applicable.
- To enhance environmental hygiene and sustainability, the project will also include:
- Improved waste management systems.
- Better ventilation to minimize odors and moisture.
- Durable construction materials requiring minimal maintenance.
- Measures that improve water efficiency wherever practicable.
- Replacement of worn plumbing fixtures.
- Waterproofing and floor resurfacing where necessary.
